

## **EXHIBIT A**

1  
2 DATE: 06/27/2013  
3 START TIME: 0758 EDT  
4 DURATION: 01:43:00  
5 PARTICIPANTS: DR. MIRILASHVILI  
6 CONFIDENTIAL SOURCE  
7 a/k/a CS  
8 ABRAHAM CORREA  
9  
10

1 [BEGINNING OF CONVERSATION]

2 [UNDERLINED WORDS SPOKEN IN ENGLISH]

3 [BACKGROUND CONVERSATION]

4 DR. MIRILASHVILI: La Antigua Jose. [UNINTELLIGIBLE] Come on, come on,  
5 now. [UNINTELLIGIBLE] Do you speak English?

6 CORREA: Do you understand English?

7 CS: A little.

8 CORREA: This Dr. Michael Mirilashvili. He's the pain doctor. He's going to  
9 read your records then he's going to show you the problems you  
10 have in the diagram. Then he's going to tell you what he can do for  
11 with and give you the remedy.

12 CS: Okay.

13 DR. MIRILASHVILI: He has to pay for the visit.

14 CORREA: Now you have to pay him for the visit [PAUSE] Two hundred  
15 dollars. And this is your receipt for the records.

16 CS: Okay.

17 DR. MIRILASHVILI: Thank you sir.

18 CORREA: Thank you [PAUSE].

19 DR. MIRILASHVILI: [UNINTELLIGIBLE] I need some time to read this paper.

20 CORREA: Give him a minute so he can read your, your [PAUSE]

21 [VOICES OVERLAP]

22 CS: Oh, okay.

1 CORREA: [PAUSE] papers.

2 [BACKGROUND: VOICES, TELEVISION SET ON, COUGHING]

3 [LONG PAUSE]

4 DR. MIRILASHVILI: Okay, come to me please.

5 CORREA: Get up. He's going to [UNINTELLIGIBLE].

6 DR. MIRILASHVILI: Come.

7 CORREA: Get closer.

8 DR. MIRILASHVILI: Come. This is your [PAPER SHUFFLING] skeleton of  
9 your bones.

10 CORREA: This is the skeleton of [PAUSE]

11 [VOICES OVERLAP]

12 CS: Uh-huh.

13 CORREA: [PAUSE] [NOISE] of your bones.

14 DR. MIRILASHVILI: What I would do right now I will point to your attention  
15 which part of the bone, muscle, ligaments are involve in  
16 your problem.

17 CORREA: Right now he's going to point out to you where you have your  
18 muscle and bone problems.

19 CS: Uh-huh.

20 DR. MIRILASHVILI: Then I will explain to you what's going on wrong.

21 CORREA: Then he's going to explain what's wrong with you.

22 DR. MIRILASHVILI: Okay, and after the examination I will discuss with you

1 what I can do for you.

2 CORREA: After he examines you he'll tell you what he can do for  
3 you.

4 CS: Okay.

5 DR. MIRILASHVILI: You see this brown color bone?

6 CORREA: Do you see the, the brown bones that are there?

7 CS: Yes.

8 DR. MIRILASHVILI: This is your vertebrae.

9 CORREA: That's what's called vertebrae...

10 [VOICES OVERLAP]

11 DR. MIRILASHVILI: You have twenty-four...

12 CORREA: This one here.

13 DR. MIRILASHVILI: ...bones like this make that be the entire spine.

14 CORREA: You have twenty-four bones that make up your spine.

15 CS: Uh-huh.

16 DR. MIRILASHVILI: You see the yellow light fluid?

17 CORREA: Do you see the yellow here inside the, the bone?

18 CS: Uh-huh.

19 DR. MIRILASHVILI: This is your disc.

20 CORREA: That's what's called the discs. That....

1 [VOICES OVERLAP]

2 DR. MIRILASHVILI: This keep keeping each vertebrae away [PHONETIC] and  
3 working as a cushion and absolvent when you're standing,  
4 sitting, or walking.

5 CORREA: The disc works like a sponge that, that keeps the bones separated  
6 so it can help prevent them from coming together.

7 CS: Okay.

8 DR. MIRILASHVILI: Do you see these tiny lines between the bones, tiny...

9 [VOICES OVERLAP]

10 CORREA: Do you see the...

11 DR. MIRILASHVILI: Lines?

12 CORREA: Do you see the, the line he's showing you?

13 CS: Yes.

14 DR. MIRILASHVILI: This is your facet joint, the lining [PHONETIC] from the  
15 neck all the way down.

16 CORREA: That's what's called facet joint, which runs from the top to the  
17 bottom.

18 CS: Okay.

19 DR. MIRILASHVILI: Do you, do you see this dark brown color spots here?

20 CORREA: Do you see the brown he's showing you right now?

21 CS: Yes.

22 DR. MIRILASHVILI: Uh, yes?

1 CS: Yes.

2 DR. MIRILASHVILI: Sacroiliac joint. This is sacroiliac joint.

3 CORREA: Those are called sacroiliac joint, that's what it's called.

4 DR. MIRILASHVILI: Now, the main function of these two joints when  
5 there normal, when they're flexible, are properly hold and  
6 carrying all the loads coming from the spine.

7 CORREA: The, the function of the two bones he showed you is to hold the  
8 weigh from top to bottom.

9 CS: Okay.

10 DR. MIRILASHVILI: Do you see this opening here and nerve coming through?

11 CORREA: Do you see the openings right there? That's where the nerves go  
12 through.

13 CS: Uh-huh.

14 [VOICES OVERLAP]

15 DR. MIRILASHVILI: This is your spinal cord.

16 CORREA: That's what's called the spine.

17 DR. MIRILASHVILI: Your spinal cord are the huge trunk containing x number of  
18 the pair nerves, give the branches to the left side, give the  
19 branches to the right side.

20 CORREA: Through your spine, through [UNINTELLIGIBLE] nerves which  
21 go through both left and right side of your [PAUSE]

22 DR. MIRILASHVILI: This is your ....

23 [VOICES OVERLAP]

1 CORREA: ...bones.

2 DR. MIRILASHVILI: .... paraspinal muscle running from the neck, neck all the  
3 way down.

4 CORREA: That's what's called uh, paraspinal muscle which runs from your  
5 neck to your waist down.

6 CS: Okay.

7 DR. MIRILASHVILI: The usual function of this muscle is a full support of your  
8 spine.

9 CORREA: Its function is to [NOISE] hold everything in its place.

10 DR. MIRILASHVILI: Now, what's going on wrong? Now, look [PAUSE]

11 CORREA: The... [PAUSE]

12 [VOICES OVERLAP]

13 DR. MIRILASHVILI: ... here.

14 CORREA: ...problem you have.

15 DR. MIRILASHVILI: This is the lumbar [PHONETIC] spine one, two, three,  
16 four, five.

17 CORREA: That's bone L1, L2, L3, four and five.

18 DR. MIRILASHVILI: Alright? [UNINTELLIGIBLE] what this says, your disc  
19 with this yellow fluid, which is proper, properly hold by  
20 four ligament, one of the ligaments is ruptured and this  
21 fluid is leaking out.

22 CORREA: What's happening to you is that, what he's saying is that your disc  
23 is leaking, the fluid leaked on the side and now you have  
24 both bones coming together.

1 DR. MIRILASHVILI: When the disc is gone or [UNINTELLIGIBLE] uh, along  
2 the vertebrae slipping forward [UNINTELLIGIBLE]  
3 vertebrae.

4 CORREA: When that happens both bones come together from top to bottom.

5 CS: Uh-hum.

6 DR. MIRILASHVILI: And nerve coming through on the left side and right side is  
7 in trapped [PHONETIC].

8 CORREA: What can happen, the nerve that goes through right side and the  
9 left side gets pinched.

10 DR. MIRILASHVILI: When the nerve is in trapped [PHONETIC] you feel  
11 numbness and tingling sensation in your lower extreme  
12 [PHONETIC].

13 CORREA: When that happens you feel your legs numb, you feel like a, like a  
14 tingling sensation.

15 DR. MIRILASHVILI: After this [BACKGROUND: NOISE] disc  
16 [UNINTELLIGIBLE] your joint, your facet joint and  
17 sacroiliac joint become hypertrophic [PH].

18 CORREA: When that happens, the facet joint and the sacroiliac joint get hard.  
19 [UNINTELLIGIBLE].

20 DR. MIRILASHVILI: What this means for you... if this, this [UI] this ligaments  
21 cannot hold the, all the weight is coming from the spine.

22 CORREA: What that means is that with your weight it doesn't hold from the  
23 neck down.

24 DR. MIRILASHVILI: Because your [UNINTELLIGIBLE] your lower back  
25 [PAUSE]

26 CORREA: When that happens in the middle of what he just showed you ...is  
27 that you have... [NOISE], you have the problem.

1 DR. MIRILASHVILI: [PAUSE] and the, and the severe lower back pain.

2 CORREA: And you get a lot of in the [PAUSE]

3 [VOICES OVERLAP]

4 DR. MIRILASHVILI: So numbness [PAUSE]

5 CORREA: [PAUSE] [UNINTELLIGIBLE][PAUSE]

6 DR. MIRILASHVILI: [PAUSE] numbness coming from the nerve

7 [UNINTELLIGIBLE] and pain coming from the facet and

8 sacroiliac joint hypertrophy.

9 CORREA: That you get numbness on this side of the leg and then the muscle

10 gets, gets hypertrophy.

11 DR. MIRILASHVILI: Your spinal cord becomes spastic. What this means,

12 every morning you may experiencing stiffness in your

13 lower back.

14 CORREA: When that happens... what happens is that, that your spine

15 becomes spastic and then in the morning you feel that in

16 the bottom... you, you get a lot of pain where you can

17 barely move.

18 DR. MIRILASHVILI: Any questions?

19 CORREA: Do you have questions for him?

20 CS: No, is okay I understand.

21 CORREA: Okay, thank you. [RUSTLING SOUND] [UNINTELLIGIBLE]

22 CONVERSATION] Now he's going to ask you a couple of

23 questions now.

24 [BACKGROUND: NOISE]

25 DR. MIRILASHVILI: What he needs, he needs a [UNINTELLIGIBLE], sit down

26 and take care of all the patients, right?

1 CORREA: [LAUGHS]

2 CS: [CHUCKLES]

3 [PAUSE]

4 DR. MIRILASHVILI: Okay. [NOISE] Now, I'll ask a question, you answer to my  
5 questions. For, in your lower back pains, sitting down,  
6 which leg, left or right?

7 CORREA: The pain you get in your, in your back goes through, through your  
8 left or right leg?

9 CS: Sometimes both. When [PAUSE]

10 [VOICES OVERLAP]

11 DR. MIRILASHVILI: Both sides.

12 CS: When [UNINTELLIGIBLE].

13 CORREA: Yeah.

14 DR. MIRILASHVILI: Both sides.

15 CORREA: On both sides.

16 DR. MIRILASHVILI: But more where, the left or right?

17 CORREA: It happens more on which one?

18 CS: On the left.

19 DR. MIRILASHVILI: Left. [NOISE] So [UNINTELLIGIBLE][PAUSE]

20 CS: [COUGHING]

21 DR. MIRILASHVILI: [PAUSE] [UNINTELLIGIBLE]on the, the left sides...  
22 right sides.

1 CS: [COUGHING]

2 DR. MIRILASHVILI: Okay. This pain travels above the knee or run all the way  
3 down to your toe?

4 CORREA: The pain runs down to your ankle over here or does it  
5 continue down to your toes?

6 CS: No, up to the ankle.

7 CORREA: Up to the knee.

8 DR. MIRILASHVILI: Above the knee. Above... the knee. Your pain travels in the  
9 front, inside, outside or behind?

10 CORREA: Your pain runs on top, on the outside, on the inside or in the back?

11 CS: Inside.

12 CORREA: The inside.

13 DR. MIRILASHVILI: Inside. Can you ask [PAUSE]

14 CS: [COUGHS]

15 DR. MIRILASHVILI: [PAUSE] how long he got this pain?

16 CORREA: How long have you had this pain?

17 CS: It's been a while already. Like [PAUSE]

18 CORREA: Like how long?

19 CS: I think it's been more than, almost eight months or a year.

20 CORREA: About eight months.

21 DR. MIRILASHVILI: Now, describe me... uh, ask him to describe to me... does  
22 he feel hot burning sensation, electrical pulsating sensation

1 or shocks, shooting, stabbing [NOISE] pains?

2 CORREA: Do you feel, like, electricity, like if it's burning or like stabbing?  
3 How do you feel?

4 CS: Like, like electricity and like, like shocks.

5 CORREA: Electricity and like shocks.

6 [PAUSE]

7 DR. MIRILASHVILI: What was the cause of his, his problem eight months ago?

8 CORREA: What happened to you eight months ago that now you have that  
9 problem?

10 CS: A fall.

11 CORREA: He fell down.

12 DR. MIRILASHVILI: Whe, where?

13 CORREA: Where?

14 CS: Um... playing basketball.

15 CORREA: Playing basketball.

16 DR. MIRILASHVILI: Sport injury. [PAUSE] Okav. Now, any... hospital? They,  
17 they took him hospital...

18 [VOICES OVERLAP]

19 CORREA: Did you go, did you go...

## 20 [VOICES OVERLAP]

31 DR. MIRILASHVILI: After that?

1 CORREA: To the hospital for that?

2 CS: Uh, yes... to the hospital and then they sent me to some place and I  
3 never went, [NOISE] but I went to the hospital.

4 CORREA: He went to the hospital and then they sent him somewhere else, but  
5 he didn't get to go to the other place they sent him to  
6 because he, they told him to go to the other place.

7 DR. MIRILASHVILI: So they didn't see him in the hospital?

8 CORREA: Did they see you in the hospital?

9 CS: Yes, but... uh... they told me to wait; they saw me and I waited,  
10 but I had to work and I left with the pain. I had to go back.

11 CORREA: He went to the hospital [BACKGROUND: TELEPHONE RINGS]  
12 and they saw him, but he couldn't stay long. He had to go,  
13 he had to [PAUSE]

14 [VOICES OVERLAP]

15 DR. MIRILASHVILI: Alright. And which...

16 [VOICES OVERLAP]

17 CORREA: He needed to go to work.

18 DR. MIRILASHVILI: Which hospital?

19 CORREA: What hospital did you go to?

20 [BACKGROUND: TELEPHONE RINGS]

21 CS: To Harlem.

22 CORREA: Harlem Hospital?

23 CS: Yeah.

1 DR. MIRILASHVILI: Okay. What medicine he's taking for this pain?

2 CORREA: What medication are you taking for that?

3 CS: That the uh... M, M30 [PH].

4 CORREA: M, M30 [PAUSE]

5 DR. MIRILASHVILI: Oxycodone

6 [VOICES OVERLAP]

7 CS: Yeah, yeah, yeah

8 DR. MIRILASHVILI: Oxycodone. Alright. He's allergic to any medication?

9 CORREA: That if you're allergic...

10 [VOICES OVERLAP]

11 CS: No.

12 CORREA: To any medication?

13 CS: Uh-uh.

14 [PAUSE]

15 DR. MIRILASHVILI: Any medical problem?

16 CORREA: That if you have any medical problems [PAUSE]

17 [VOICES OVERLAP]

18 CS: No, no, no, no.

19 CORREA: Diabetes, Hepatitis? No?

1 DR. MIRILASHVILI: Hepatitis [PAUSE]

2 CS: No.

3 DR. MIRILASHVILI: HIV?

4 CS: No.

5 DR. MIRILASHVILI: Ja [PAUSE]

6 CORREA: Blood pressure?

7 DR. MIRILASHVILI: Ja [PAUSE]

8 CORREA: Asthma?

9 CS: No, nothing [PAUSE]

10 DR. MIRILASHVILI: Drug [PAUSE]

11 CS: [PAUSE] nothing.

12 DR. MIRILASHVILI: [PAUSE] abuse?

13 CORREA: That if you, if you use drugs?

14 CS: No, no. [BACKGROUND: TELEPHONE RINGS] [COUGHS]

15 DR. MIRILASHVILI: Any surgery, any operations?

16 CORREA: That if you've had um, operations [BACKGROUND:  
17 TELEPHONE RINGS] before?

18 CS: No.

19 [PAUSE]

20 DR. MIRILASHVILI: He's married, single?

1 CORREA: If you're married or single?

2 CS: Uh, single.

3 CORREA: Single.

4 DR. MIRILASHVILI: Children?

5 CORREA: Do you have children?

6 CS: Yes, three.

7 CORREA: Three.

8 DR. MIRILASHVILI: In his family anybody has a stroke, cancer, diabetes?

9 CORREA: In your family is there anyone with cancer, diabetes?

10 CS: No.

11 DR. MIRILASHVILI: Heart problem, high [PAUSE]

12 [VOICES OVERLAP]

13 CORREA: Are there any problems [PAUSE]

14 DR. MIRILASHVILI: [PAUSE] blood pressure?

15 CORREA: [PAUSE] with the heart, high blood pressure?

16 CS: No. [PAUSE] Family's fine.

17 DR. MIRILASHVILI: That's, [NOISE] put this one in your pocket, the paper.

18 CS: Oh, okay.

19 CORREA: Put the paper away... [RUSTLING SOUND] and stand up because

20 he's going to examine you.

1 DR. MIRILASHVILI: Okay, right here. [RUSTLING SOUND]  
2 [UNINTELLIGIBLE CONVERSATION]

3 DR. MIRILASHVILI: Stand up, stand up.

4 CORREA: Stand up.

5 DR. MIRILASHVILI: Okay, [UNINTELLIGIBLE]. [NOISE] Now, walk for me.

6 CORREA: Walk from the wall and then... Walk, turn around and walk back.

7 [PAUSE]

8 DR. MIRILASHVILI: Turn around, bend over.

9 CORREA: Bend over.

10 DR. MIRILASHVILI: Okay, that's good. Bend to the right side.

11 CORREA: To the right. To the [PAUSE]

12 [VOICES OVERLAP]

13 DR. MIRILASHVILI: To the left [PAUSE]

14 CORREA: [PAUSE] left side.

15 DR. MIRILASHVILI: [PAUSE] side.

16 CORREA: Give him your [PAUSE]

17 DR. MIRILASHVILI: Give me [PAUSE]

18 CORREA: [PAUSE] hands.

19 DR. MIRILASHVILI: [PAUSE] give me your hands. Stand on your heels.

20 CORREA: Stand like him, with the back of your feet. With the back of your

1 feet... Uh-huh.

2 DR. MIRILASHVILI: [UNINTELLIGIBLE] [PAUSE]

### 3 [VOICES OVERLAP]

4 CORREA: With your toes.

5 DR. MIRILASHVILI: [PAUSE] and your toes.

6 CORREA: Stand on your toes.

7 DR. MIRILASHVILI: You got poor coordination because is no good blood  
8 circulation going to the right, to the left.

9 CORREA: Um, when, when you stand you have... your circulation is bad,  
10 since you have a pinched nerve, that's why you can  
11 [PAUSE]

## 12 [VOICES OVERLAP]

13 CS: Uh-huh.

14 CORREA: Use the stairs sit down here and put your leg  
15 [UNINTELLIGIBLE] PAUSE] barely stand.

16 DR. MIRILASHVILI: Use the stairs sit there and put your feet forward.

[RUSTLING SOUND]

18 DR. MIRILASHVILI: Press, press [PHONETIC].

19 CORREA: Move [UNINTELLIGIBLE].

20 JOURNAL OF RUSTLING SOULS

21 DR. MIRILASHVILI: Relax, relax. You're doing

23 veins.

1 CORREA: You have varicose veins, which are bad.

2 DR. MIRILASHVILI: Okay, this pain, this varicose is giving him the swelling and  
3 giving the pain when he's walking.

4 CORREA: When you walk... when you're vein is like that your legs swell up  
5 and you get pain.

6 DR. MIRILASHVILI: And be careful with this vein to jump around because  
7 what's going on, this blood clot can uh... travels in your  
8 heart, in [NOISE] your lung, it gives you heart attack or  
9 stroke.

10 CORREA: You have be careful with running or jumping because if one of  
11 those gets, gets damaged it can go up to your heart and give  
12 you a stroke

13 [BACKGROUND: NOISE]

14 CS: Yes, but I don't, don't have pain.

15 CORREA: He say he don't be having pain over there. He says it's bad because  
16 it's swollen.

17 CS: Oh, yeah! Uh-huh, [UNINTELLIGIBLE].

18 CORREA: He said that he doesn't really be having pain there though. But I'm  
19 explaining to him that you said that they're, they bad  
20 though so he gotta be careful with them.

21 DR. MIRILASHVILI: Uh-huh. Don't scratch, let him know, uh, uh, let, let me  
22 know if he feel this about the same, less or more.

23 [BACKGROUND: NOISE]

24 CORREA: He's going to move your leg. You have to tell him if you feel it  
25 more, less or the same.

26 [PAUSE]

1 CS: I feel it more.

2 CORREA: You feel it more on this side? He feels it more on this side.

3 DR. MIRILASHVILI: Don't move your leg please.

4 [VOICES OVERLAP]

5 CS: Okay.

6 CORREA: Don't move your leg.

7 [LONG PAUSE]

8 [NOISE]

9 CS: [UNINTELLIGIBLE].

10 DR. MIRILASHVILI: So lets say more. Push your [NOISE] leg up against my  
11 [PAUSE]

12 [VOICES OVERLAP]

13 CORREA: Lift your leg [PAUSE]

14 DR. MIRILASHVILI: [PAUSE] hand.

15 CORREA: [PAUSE] against his hand.

16 DR. MIRILASHVILI: This one. So, less power on the left side.

17 CORREA: You have less power on the, on the [PAUSE]

18 [VOICES OVERLAP]

19 DR. MIRILASHVILI: Set your leg straight. Now, bend your knee and let me see  
20 [PAUSE]

1 CORREA: Bend your knee [PAUSE]

2 DR. MIRILASHVILI: [PAUSE] this way [PH].

3 CORREA: [PAUSE] against his hand.

4 DR. MIRILASHVILI: Okay. Straight!

5 CORREA: Raise your leg.

6 DR. MIRILASHVILI: Now bend.

7 CORREA: Now bend it.

8 DR. MIRILASHVILI: No problem on [NOISE] the left. Very interesting.

9 CORREA: [UNINTELLIGIBLE].

10 DR. MIRILASHVILI: [PAUSE] Well, you got damage on both sides. This nerve  
11 [UNINTELLIGIBLE] both sides.

12 CORREA: Your nerves are uh, damaged on both sides.

13 DR. MIRILASHVILI: And he got no sensory here. [NOISE] in the right side.

14 CORREA: You have no sensor on the right side.

15 DR. MIRILASHVILI: And... but you got the right motor function on the right  
16 side.

17 CORREA: The... motor, the motor on that side are functioning more than the  
18 ones on this side.

19 DR. MIRILASHVILI: He has good uh, less motor function on the left side and  
20 good sensory on the left side.

21 CORREA: The motor on this side uh, is better, but... is worse, but the sensor  
22 is working better.

1 DR. MIRILASHVILI: Okay, listen to me... if I would be you I would think about  
2 the surgery as soon as possible.

3 CORREA: If he was you he thinks you should have surgery as soon as  
4 possible.

5 DR. MIRILASHVILI: Because... Yes, surgerv. Because you fell, because your  
6 nerve was rumbling. Your nerve was damaged and because  
7 when you playing [NOISE] you don't feel the leg and you  
8 fell.

9 CORREA: Okay, when you fell... because your, your nerves are damaged on  
10 one side which was when you fell when you were playing.

11 CS: Okay.

12 DR. MIRILASHVILI: You understand? So what I will do first, I'll give you  
13 enough medication to keep you comfortable.

14 CORREA: He's going to give you enough medication to, to keep you calm.

15 DR. MIRILASHVILI: Number two [PAUSE]

16 [VOICES OVERLAP]

17 CS: Alright, alright.

18 DR. MIRILASHVILI: [PAUSE] number two. I'll refer you to a specialist uh, uh,  
19 we call uh... interventional pain management and an  
20 orthopedic doctor to see if they can remove the cause of  
21 your problems.

22 CORREA: He's going to give you a referral to see an interventional doctor and  
23 an orthopedic doctor to see [RUSTLING SOUND] if he  
24 can fix [PH] the, the, the problem you have.

25 DR. MIRILASHVILI: I'll send you for rehabilitation therapy, hydro therapy, to  
26 rebuild your muscle, rebuild your ligaments.

27 CORREA: He's going to send you to another therapist that's called hydro

4 DR. MIRILASHVILI: Now, what you have to do, number one, weight loss.

5 CORREA: Number one, he wants you try loosing weight.

6 DR. MIRILASHVILI: As much as possible. [PAUSE] Number two, do not jump,  
7 do not run, no more basketball.

8 CORREA: Don't run, don't jump and don't play any more basketball.

9 DR. MIRILASHVILI: Any time you're jumping, running you will displace the  
10 disc more and more.

11 CORREA: If you keep playing your disc will, will continue to come out more  
12 and more.

13 DR. MIRILASHVILI: Okay?

14 CS: Okay.

15 DR. MIRILASHVILI: Now, do not lift or carrying any heavy loads. If you carry  
16 any heavy loads you're squeezing your damaged nerve  
17 more and more.

18 CORREA: Don't lift weights, don't lift weights, heavy uh, things or anything  
19 like that because like that you'll put more and more weight  
20 on your spine.

21 DR. MIRILASHVILI: Okay?

22 CS: Okay.

23 DR. MIRILASHVILI: Now, pain. Pain doesn't matter where is originate from. It  
24 has to go from peripheral [PH] to spinal cord [PAUSE]

25 CORREA: It doesn't matter where the pain is from, it will always go to  
26 the back, to, to your spine.

1 DR. MIRILASHVILI: From spinal cord it has to go to your brain [PAUSE]

2 CORREA: From your spine it will go up to, to your, to your mind.

3 DR. MIRILASHVILI: From brain is compute to receive, analyze information and  
4 sending the pain where it's supposed to be.

5 CORREA: Your mind works like a computer and then your, your mind sends  
6 it back to your spine where the pain is.

7 DR. MIRILASHVILI: Because your pain is lasting more than six months  
8 [PAUSE]

9 CORREA: Because you've had your pain for more than six months [PAUSE]

10 DR. MIRILASHVILI: [PAUSE] your pain become chronic pain.

11 CORREA: [PAUSE] your pain is chronic.

12 DR. MIRILASHVILI: To properly control your chronic pain I have to shut down  
13 your pain and spinal cord to give you the Neurontin  
14 [PHONETIC]a hundred milligram, twice a day.

15 CORREA: He's going to give you Neurontin [PHONETIC]... How many  
16 milligrams, a hundred?

17 DR. MIRILASHVILI: A hundred.

18 CORREA: A hundred milligrams, two pills a day so, so your pain can... go to  
19 sleep quickly.

20 DR. MIRILASHVILI: To shut down your descending pain [UNINTELLIGIBLE] I  
21 have to give you Elavil ten milligrams, twice a day.

22 CORREA: He's going to give you um, Elavil um... ten milligrams, twice a  
23 day so it can help you too.

24 DR. MIRILASHVILI: I'm giving you the Oxycodone, thirty milligrams, three  
25 times a day to shut down your  
26 [UNINTELLIGIBLE]scending pain as the immune

1 [PHONETIC] receptor in the brain.

2 CORREA: And he's going to give you Oxycodone, thirty milligrams, three  
3 pills a day that way it'll put the pain to sleep completely.

4 CS: Uh-huh.

5 DR. MIRILASHVILI: Any question?

6 CORREA: Do you have a question for him?

7 CS: No [PAUSE]

8 [VOICES OVERLAP]

9 DR. MIRILASHVILI: And, and [PAUSE]

10 CORREA: [PAUSE] no.

11 DR. MIRILASHVILI: [PAUSE] muscle relaxant, Robaxin, to reduce your muscle  
12 spasm.

13 CORREA: And he's going to give you... Robaxin, which is for the muscles so  
14 it can help you with the muscles.

15 DR. MIRILASHVILI: Okay?

16 CS: Thank you, sir.

17 [RUSLTING SOUND]

18 [LONG PAUSE]

19 DR. MIRILASHVILI: Which hospital do you want to go to be seen by a  
20 specialist?

21 [VOICES OVERLAP]

22 CORREA: [CLEAR THROAT]

1 DR. MIRILASHVILI: [PAUSE] specialist?

2 CORREA: What hospital do you want to go to, to see the specialist?

3 CS: Anyone.

4 CORREA: Where should he put you, in Man, in Manhattan or in the Bronx?

5 CS: Manhattan.

6 DR. MIRILASHVILI: Where [PAUSE]

7 [VOICES OVERLAP]

8 CORREA: He said [PAUSE]

9 DR. MIRILASHVILI: [PAUSE] in Mount Sinai.

10 CORREA: [PAUSE] Man [PAUSE]

11 DR. MIRILASHVILI: [PAUSE] [UNINTELLIGIBLE], Beth Israel, where

12 [PAUSE]

13 CORREA: No, no [PAUSE]

14 DR. MIRILASHVILI: [PAUSE] you want?

15 CORREA: [PAUSE] he wants to go in Manhattan. Um, St. Lukes,

16 Presbyterian [UNINTELLIGIBLE] [PAUSE]

17 [VOICES OVERLAP]

18 CS: Uh-huh.

19 CORREA: St. Lukes?

20 DR. MIRILASHVILI: St. Lukes, yeah.

1 CORREA: St. Lukes.

2 [PAPER SHUFFLING SOUND]

3 [LONG PAUSE]

4 DR. MIRILASHVILI: What's going on? Why they amputated [PHONETIC]?  
5 [NOISE] [UNINTELLIGIBLE] [BACKGROUND:  
6 TELEPHONE RINGS] [UNINTELLIGIBLE].

7 CS: [COUGHS]

8 DR. MIRILASHVILI: Look here, I'm sending you [PAUSE]

9 CORREA: Come, so you can see what he's doing.

10 DR. MIRILASHVILI: [PAUSE] for hydrotherapy swimming pool[COUGHS] to  
11 rebuild your muscle and rebuild your ligaments.

12 CORREA: The one he marked there is called hydrotherapy. That's therapy  
13 they're going to give you in a pool to help you with your  
14 muscles and your ligaments.

15 DR. MIRILASHVILI: I'm sending you for interventional pain management  
16 doctor, specialist, to see if they can remove the cause of  
17 your problem.

18 CORREA: That's the interventional doctor. He's going to send you there to  
19 see if they help you with the pain you have.

20 DR. MIRILASHVILI: And this is for Orthopedic doctor to see if nothing works,  
21 then Orthopedic doctor has to consider to do the surgery to  
22 remove the nerve entrapments [PH].

23 CORREA: That's the, the Orthopedic. If nothing else works for you, you'll go  
24 see him to see if they give, give you surgery to help you.  
25 Now, the numbers he's putting in the bottom indicates the  
26 problems you have so that when the doctor sees that he'll  
27 know the problems you have.

1 CS: Okay.

2 DR. MIRILASHVILI: Thank you sir.

3 CORREA: You're welcome. [COUGHS]

4 DR. MIRILASHVILI: What's today uh, twenty-seven?

5 CORREA: Yeah.

6 DR. MIRILASHVILI: Yeah. [BACKGROUND: TELEPHONE RINGS] [LONG  
7 PAUSE] Okay, which pharmacy does he want to go for this  
8 medication?

9 CORREA: What pharmacy do you want to go to for your medication?

10 CS: Uh, use [PAUSE]

11 [NOISE]

12 DR. MIRILASHVILI: Is there insurance to balance the expense?

13 CORREA: Do you have [PAUSE]

14 DR. MIRILASHVILI: [PAUSE] expense?

15 CORREA: [PAUSE] do you have, do you have insurance to pay for your  
16 medication?

17 CS: No, cash.

18 CORREA: No, cash.

19 DR. MIRILASHVILI: You want to go where. Manhattan, Bronx?

20 [VOICES OVERLAP]

21 CORREA: You want to go to Manhattan or...?

1 CS: Manhattan, whatever [PAUSE]

2 CORREA: Manhattan.

3 CS: [PAUSE] Manhattan.

4 DR. MIRILASHVILI: Okay, okay. [UNINTELLIGIBLE]. [PAUSE] You want to  
5 go to Queens?

6 CS: Yeah, yeah, Queens.

7 DR. MIRILASHVILI: Queens?

8 CS: Yeah.

9 DR. MIRILASHVILI: Okay. [NOISE] And this is the Queens pharmacy's name.

10 CORREA: He's going to give you the name and address for... for the  
11 pharmacy, which is in Queens.

12 [LONG PAUSE]

13 DR. MIRILASHVILI: Okay. Can you write for him this address please? Okay.  
14 Write him for this address. [UNINTELLIGIBLE]  
15 pharmacy... [PAUSE] telephone... [LONG PAUSE]  
16 Okay? Also [UNINTELLIGIBLE] [PAUSE]

17 [VOICES OVERLAP]

18 CORREA: The pharmacy in Queens, this is the phone number if anything.

19 DR. MIRILASHVILI: Tell him [NOISE] [UNINTELLIGIBLE] here for  
20 [UNINTELLIGIBLE].

21 CORREA: You can also come here to do...

22 [VOICES OVERLAP]

23 CS: Okay.

1 DR. MIRILASHVILI: [PAUSE] therapy.

2 CS: Okay.

3 DR. MIRILASHVILI: Thank you very much, sir. Any questions? Any [PAUSE]

4 [VOICES OVERLAP]

5 CORREA: Do have questions [PAUSE]

6 DR. MIRILASHVILI: Questions?

7 CORREA: [PAUSE] for him?

8 CS: Huh?

9 CORREA: If you have questions for him?

10 CS: No, no.

11 DR. MIRILASHVILI: Thank you. See you in four weeks.

12 CORREA: I'll see you in four weeks. Wait for him outside while... he writes  
13 up the prescriptions.

14 DR. MIRILASHVILI: And I'll give you this one and your oxycodone

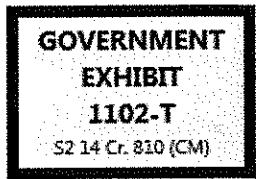

15 CS: Okay.

16 CORREA: You're welcome.

17 [LONG PAUSE]

ABRAHAM CORREA

[BEGINNING OF CONVERSATION]

[UNDERLINED WORDS SPOKEN IN ENGLISH]

DR. MIRILASHVILI: [UNINTELLIGIBLE] speak English. How are you today  
Mr. Jose?

CS: Fine.

[SOUND OF DOOR CLOSING]

DR. MIRILASHVILI: Tell me Mr. Jose. [UNINTELLIGIBLE] in my office.  
[UNINTELLIGIBLE].

CORREA: Your urine came out fine and you're a good patient.

CS: Okay.

[NOISE]

DR. MIRILASHVILI: Number one...

CS: Uh-huh.

[LONG PAUSE]

DR. MIRILASHVILI: Let me look in your file.

CORREA: He's going to open up your records now.

CS: Hum.

[LONG PAUSE]

DR. MIRILASHVILI: [UNINTELLIGIBLE] today? Hum, this printer. You see  
what this printer is doing to me? [PAUSE] I have six, seven  
to print [PH]. [LONG PAUSE] Here we go. Okay, Mr. Jose  
La Antigua... when I saw you last time... you complain  
you're lower back lower extremity pain.

[NOISE]

CORREA: When you came last time you were complaining about] pain under your waist.

DR. MIRILASHVILI: You were receiving your Oxycodone, thirty milligrams three times a day.

CORREA: He's was giving you Oxycodone, thirty milligrams, three pills a day.

DR. MIRILASHVILI: Duranten [PH], a hundred milligrams, twice a day.

CORREA: Duranton [PH], a hundred milligrams, two pills a day.

DR. MIRILASHVILI: Elavil, ten milligrams, twice a day.

CORREA: Elavil, ten milligrams, two pills a day.

DR. MIRILASHVILI: Robaxin, seven-fifty, twice a day.

CORREA: Robaxin, seven-fifty, two pills. After you [PAUSE]

[VOICES OVERLAP]

DR. MIRILASHVILI: Now, what [PAUSE]

CORREA: [PAUSE] after you take all the medication is your pain at zero where you don't feel it or you feel a little bit of one or the other.

CS: I don't feel it.

CORREA: Zero.

CS: [UNINTELLIGIBLE].

CORREA: Are you getting side effects; vomiting, itching, diarrhea?

CS: No.

[PAUSE]

DR. MIRILASHVILI: Referral.

CORREA: The referral he gave you, did you already go see that doctor?

CS: Uh... for... they gave me an appointment for [PAUSE]

[VOICES OVERLAP]

DR. MIRILASHVILI: Hospital, I gave him referral to hospital.

CORREA: When did they give you the appointment for?

CS: For... uh, October fifteenth.

CORREA: He has his appointment for October fifteenth.

DR. MIRILASHVILI: Okay. What specialty?

CORREA: What, what doctor did they give you the appointment for?

CS: I went to one in... in... Harlem Hospital.

CORREA: But for which one? For, for the [PAUSE]

[VOICES OVERLAP]

CS: Ortho [PH].

CORREA: [PAUSE] hydrotherapy classes, for [PAUSE]

CS: For the therapy.

DR. MIRILASHVILI: What about Orthopedic?

CORREA: And what happened with the Orthopedic, did you make an appointment?

CS: Yes, but I can't because I'm going to travel in November because it's my mom's death anniversary [PAUSE]

CORREA: Oh, they gave you an [PAUSE]

CS: Uh-huh. So [PAUSE]

CORREA: [PAUSE] they gave you... they gave you an appointment in November for that one?

CS: Uh-huh, yes.

CORREA: They gave him an appointment for November, but November he won't be able to because he has to reschedule that one.

DR. MIRILASHVILI: Get the print out. [NOISE]

[RUSTLING SOUND]

CORREA: [UNINTELLIGIBLE]. If you can, walk to the wall [UNINTELLIGIBLE].

DR. MIRILASHVILI: Bend over.

CORREA: Bend over.

CORREA: Um, nothing [PH].

[VOICES OVERLAP]

DR. MIRILASHVILI: Come on! Come on!

CORREA: [UNINTELLIGIBLE].

DR. MIRILASHVILI: Come on.

CORREA: [UNINTELLIGIBLE].

DR. MIRILASHVILI: [UNINTELLIGIBLE] stand right here.

CORREA: Stand on the back of your feet.

CS: On the back?

CORREA: No, back, back. Uh-huh.

DR. MIRILASHVILI: On your toes.

CORREA: Now forward on your toes.

CS: Forward. [UNINTELLIGIBLE]?

[VOICES OVERLAP]

CORREA: Now bend over.

DR. MIRILASHVILI: Are you doing the exercise at home?

CORREA: That if you're doing the exercises [UNINTELLIGIBLE]

[UNINTELLIGIBLE CONVERSATION DUE TO MUFFLED AUDIO]

CS: [UNINTELLIGIBLE].

CORREA: Yes.

DR. MIRILASHVILI: Also tell him that meanwhile he's also welcomed here for physical therapy if he can afford it.

CORREA: We also have therapy now and if you can come here it costs one hundred dollars to see the therapist. You can come here too.

DR. MIRILASHVILI: Okay? [NOISE] Which pharmacy he's using?

CORREA: Which pharmacy you want to go to?

CS: The one in Queens.

DR. MIRILASHVILI: Mana, Astoria, Queens?

CS: Yeah.

[SOUND OF DOOR OPENING]

DR. MIRILASHVILI: Physical therapy?

CS: Yeah, [UNINTELLIGIBLE].

DR. MIRILASHVILI: Okay, we can do that. [RUSTLING SOUND] How many physical therapy?

[PAUSE]

CS: [UNINTELLIGIBLE] pain [UNINTELLIGIBLE].

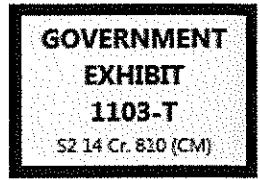

CORREA: [UNINTELLIGIBLE].

[UNDERLINED WORDS SPOKEN IN ENGLISH]

[BACKGROUND CONVERSATION]

[SOUND OF DOOR OPENING]

[RUSTLING SOUND THROUGH OUT ENTIRE CONVERSATION]

DR. MIRILASHVILI: Sir you [UNINTELLIGIBLE] somebody  
[UNINTELLIGIBLE]

CS: [UNINTELLIGIBLE]

ABRAHAM: How's everything? La Antigua Jose. Jose? [UNINTELLIGIBLE]

CS: [UNINTELLIGIBLE]

DR. MIRILASHVILI: Last time [UNINTELLIGIBLE] seeing you  
[UNINTELLIGIBLE].

CS: [LAUGHS] Yeah.

DR. MIRILASHVILI: Receipt.

ABRAHAM: That's your receipt with today's date and your name.  
[UNINTELLIGIBLE]

DR. MIRILASHVILI: When I saw you last time you were complaining of your  
[PAUSE] lower back lower extremity pain.

ABRAHAM: The last time you came you were complaining about pain on your  
waist.

DR. MIRILASHVILI: You're receiving your Oxycodene, thirty milligram, three times a day.

ABRAHAM: The Oxycodone, three pills a day.

DR. MIRILASHVILI: Neurontin, a hundred milligrams, twice a day.

ABRAHAM: Neurontin, a hundred milligrams, two pills a day.

DR. MIRILASHVILI: Elavil, ten milligrams, twice a day.

ABRAHAM: Elavil, ten milligrams, two pills a day.

DR. MIRILASHVILI: Robaxin, seven fifty, twice a day.

ABRAHAM: Robaxin, seven fifty, two pills a day. After you take all that medication. You have zero pain or one or two or you feel a little.

CS: No, I have no pain.

ABRAHAM: Zero. Are you getting side effects, itchiness, vomits, nausea?

CS: No, no.

DR. MIRILASHVILI: Halleluiah!

CS: [LAUGHS]

DR. MIRILASHVILI: You see what's happening here now. Because of the medication, combination of medication I'm giving you. I'm able to reduce your inflammation. Reducing your inflammation I'm able to reduce and control your pain.

ABRAHAM: With the combination of the medication what he's doing is helping you to reduce the inflammation so you can feel better.

CS: Yes. (Si) !

DR. MIRILASHVILI: I did the one part of my job to control your pain.

ABRAHAM: That he did one part of his job to control your pain.

DR. MIRILASHVILI: Now I have to do second part of my job.

ABRAHAM: Now he has to do the second part of his job.

DR.MIRILASHVILI: To assist you to remove the cause of your pain and rebuild your muscle.

ABRAHAM: To help you remove what is causing the pain and [UNINTELLIGIBLE]

DR.MIRILASHVILI: Remember, I gave you a referral. Did you use the referral?

ABRAHAM: He gave you a referral to see Dr. [UNINTELLIGIBLE]. Did you go?

CS: Yes but like I told you is by appointment, by time.

ABRAHAM: Did you make the appointment?

CS: Yes, is by time.

ABRAHAM: He did his appointment [UNINTELLIGIBLE]

DR.MIRILASHVILI: Good, good. What doctor, what specialist? The orthopedic doctor, hydrotherapy doctor?

ABRAHAM: For which doctor did you make the appointment for?

|

CS: The bone orthopedic.

ABRAHAM: The orthopedic.

DR.MIRILASHVILI: Ortho, hydro is pending, very good. Turn to right side, left side... Motion is very good.. I'm going to check your coordination.

ABRAHAM: He's going to check your coordination. Stand behind there

DR.MIRILASHVILI: [UNINTELLIGIBLE]

ABRAHAM: [UNINTELLIGIBLE]

DR.MIRILASHVILI: Hold it. Don't worry. On your toes... Okay,  
[UNINTELLIGIBLE]

ABRAHAM: Hold it. Ok.

DR.MIRILASHVILI: While he waits for the appointment try to do the exercise everyday.

ABRAHAM: While you're waiting for your appointment try to exercise at home.

DR.MIRILASHVILI: Okay?

CS: Alright.

DR.MIRILASHVILI: When you're in the shower, [UNINTELLIGIBLE] bending, extending, moving around. And the hot water will improve your blood circulation. Will help put improve oxygenation.

ABRAHAM: Try to exercise under the hot water. So the pain [UNINTELLIGIBLE] and the muscle [UNINTELLIGIBLE]

[VOICE OVERLAP]

CS: Alright.

|

DR.MIRILASHVILI: Do you want to send the medication to same pharmacy?

ABRAHAM: Are you going to use the same pharmacy.

CS: Yes.

DR.MIRILASHVILI: Okay. Mana pharmacy. Mana, right?

CS: Yes.

DR.MIRILASHVILI: Any question sir?

ABRAHAM: Do you have any question?

CS: No, everything is fine.

DR.MIRILASHVILI: Thank you very much sir. Thank you very much.

CS: Okay.
